## EDUCATION

### Pamantasan ng Lungsod ng Pasig

Bachelor Degree in Food industry

Pasig, Philippines

June 2020 - Mar 2024

### CS50 via edX

Harvard University – edX | Completed

CS50 is Harvard's Introduction to Computer Science course, focusing on problem-solving, algorithms, data structures, and foundational programming.

Aug 2024 - Oct 2024

### The Odin Project

Online Program | Completed

Focused on HTML, CSS, JavaScript, Git, React, Node.js, Express, and PostgreSQL. Built full-stack projects and followed industry-standard development practices.

Nov 2024 - June 2025

## WORK EXPERIENCE

### CTS Travel Recommends

Operation Assistant

McKinley Business Park Bonifacio Global City, Taguig, Philippines

Oct 2023 - Dec 2023

- Guided clients through form completion and documentation processes for new device requests, ensuring all submissions met compliance standards and processing timelines.
- Maintained accurate logs of issued and returned devices to support inventory tracking and audit readiness, helping the team stay organized and prepared for reviews.
- Provided front-line support by answering customer questions and helping with basic troubleshooting, asking for guidance from my supervisors to ensure I provided proper assistance to customers.

### Crown Regency Hotel

Hotel Operations Assistant

1026 Antonio Arnaiz Makati City, Metro Manila

Feb 2024 - Apr 2024

- Managed multiple customers while maintaining a high standard of customer service, ensuring clear communication and accurate service.
- Responded to guest requests and complaints quickly and professionally, asking the right staff for help when needed to provide accurate service standard.
- Demonstrated flexibility by covering shifts in multiple departments, adapting to different roles and responsibilities as required.

## PROJECTS

**Facetome** | **Link:** <https://facetome.netlify.app> | **Tools Used:** *React, Tailwind CSS, Node.js, Express, Prisma ORM, PostgreSQL, Passport.js, JWT (JSON Web Token)*

A dynamic social media platform that enables users to share content, engage with others, and build a network through interactive features like posts, likes, comments, and user following and user authentication for a personalized experience.

**Messagely** | **Link:** <https://messagelyy.netlify.app> | **Tools Used:** *React, Tailwind CSS, Node.js, Express, Prisma ORM, PostgreSQL, JWT (JSON Web Token)*

A full-stack messaging application that enables users to securely communicate and manage their profiles, with features user authentication, and profile customization.

**Seekandspot (Where is Waldo)** | **Link:** <https://seekandspot.netlify.app> | **Tools Used:** *React, Tailwind CSS, Node.js, Express, Prisma ORM*

A full-stack interactive game where users identify and tag specific characters or items within an image. Inspired by games like "Where's Waldo?", the app challenges users to find hidden elements, testing both memory and observation skills, with features like timed sessions, leaderboard tracking.
