PROJECTS

Facetome *React, Tailwind CSS, Node.js, Express, Prisma ORM, PostgreSQL, Passport.js, JWT (JSON Web Token)* https://facetome.netlify.app
A dynamic social media platform that enables users to share content, engage with others, and build a network through interactive features like posts, likes, comments, and user following.

Messagely *React, Tailwind CSS, Node.js, Express, Prisma ORM, PostgreSQL, JWT (JSON Web Token)*
https://messagelyy.netlify.app
A full-stack messaging application that enables users to securely communicate and manage their profiles.

Seekandspot (Where is Waldo) *React, Tailwind CSS, Node.js, Express, Prisma ORM*
https://seekandspot.netlify.app
A full-stack interactive game where users identify and tag specific characters or items within an image. Inspired by games like "Where's Waldo?", the app challenges users to find hidden elements, testing both memory and observation skills.
